Work Experience

October 2023 - Present

React Native Developer

ByteLearn

Currently working at ByteLearn, contributing to app development and collaborating with the content team to develop content pages using Next.js and Strapi.

October 2022 - September 2023

SDE-1 | Mobile App Development

Locofast

- Optimized React Native development workflows, enhancing efficiency and team collaboration.

- Managed end-to-end development of Locofast's key mobile applications, ensuring on-time delivery of features and high code quality.

- Facilitated code quality improvements through rigorous review processes, promoting best practices and knowledge sharing within the team.

- Boosted performance on low-end Android devices by implementing efficient state management, minimizing re-renders, and optimizing caching strategies based on business requirements.

- Took the lead in quickly developing Locofast customer iOS app, ensuring smooth integration for internal teams within a short timeframe.

August 2019 - June 2022

Javascript Developer

Startxlabs Technologies

Started professional journey in mobile app development with Startxlabs, gaining expertise in frontend technologies and contributing to impactful projects.

🌟 Key Achievements:

- Led frontend development across multiple app and web projects, ensuring high standards of quality and performance.

- Developed reusable boilerplates to reduce initial project setup time by 70%, allowing teams to focus more on project-specific requirements.

- Participated actively in code reviews to maintain codebase integrity and foster team collaboration.

- Contributed to the hiring process, interviewing and assessing candidates to build a skilled frontend team.

- Mentored and trained freshers in React Native and React, equipping them with essential skills to excel in their roles.

- Successfully delivered 7+ web and mobile apps to clients, meeting or exceeding project scope, schedule, and budget expectations.

- Planned and conducted frontend workshops on new trends, updates, and optimizations, enhancing team knowledge and skillsets.

May 2019 - August 2019

Full Stack Web Developer

Credit Culture

Responsible for the frontend development of the internal panel using React JS, and gained extensive knowledge in AWS services such as S3, Lambda, and more during tenure.

September 2018 - January 2019

Node.js Developer

Acumax Technologies

Responsible for the design and development of the backend application in Express.
